REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: claims 1-2, 5, 8-10, 12, and 16-21 are allowable over the closest prior art to Ajan (US 7074508) and Okuyama et al. (US 6682834).

Okuyama et al. fails to teach or suggest the claimed structure having a Cr-rich layer and a Cr-poor layer wherein the amount of Cr in the Cr-poor layer is less than 16 at% and greater than 0 at%. Instead, Okuyama et al. teaches CoCrPtBCu alloys having a minimum amount of 20 at% Cr. The reference fails to teach or suggest a motivation to adjust the Cr content of one layer to be below 16at% as required by the claims.

Ajan also fails to teach or suggest the claimed structure having both the claimed Cr-rich layer composition and the claimed Cr-poor layer composition. The reference fails to teach or suggest a motivation to modify the compositions of the CoCrPtBCu layers taught therein to meet the limitations of the present claims.

The examiner also acknowledges the corrected drawings submitted on 4/4/07.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
